

## Skills Exam Results Review Form

## Failed Test:

You must have a minimum score of 75% for each skill performed along with 100% of all key steps to pass the skill portion of the exam.

You can find the steps for each of your skills that were marked for either not being performed or for being performed incorrectly in your TMU portal. Login to your portal, choose the testing tab and click on the "details" button to review your results.

If you have failed and your score is 75% or greater on each of the 5 skills, you have missed one or more **key steps**. You may refer to the current *Utah Nursing Assistant State Certification Exam Guide* available on the utahcna.com website for details about the exam, including the **key steps**.

If you believe your skills exam was scored inaccurately, you may request a review of your exam by submitting a completed *Skills Exam Results Review Form* along with the applicable fee to UNAR at <a href="mailto:unar@davistech.edu">unar@davistech.edu</a> within 14 days of your testing event.

Your test results will be reviewed and the skills observer will be contacted. The information you provide will be discussed with the skills observer. In instances where the testing candidates' recollection of testing events conflict with that of the skills observer, the events as recollected and documented by the skills observer will prevail. If the review results in a passing score, the fee will be returned to you.
